Purchasing The Village Hall

I told David Buttery that the council had formally resolved to buy the hall provided cash could be raised without incurring debt.

I explained that our first step would be to value the hall in the new financial year. He confirmed that the diocese recognises that we will need more time than a private buyer. He also told me that the diocese will sell the hall to someone else if we do not proceed.

Next steps

I will review our financial situation with the Clerk before instructing a valuer.
